Education

BSc Computer Science with Management, Royal Holloway University of London

Period: September 2007 – current

Modules include: Logical Foundations, Introduction to Java programming, Introduction to Database Technology, Introduction to Networking Technology, Mathematical Theory of Computer Languages, Introduction to Information Security, Object Orientated Design, Graphics and Human/Computer Interfaces.

A-Levels, Truro College Cornwall

Period: September 2005 – June 2007

Subjects: Mathematics (grade C), Computer Science (grade A), Physics (grade B), Economics (grade D)

Employment and Experience

Research In Motion, www.blackberry.com

Period: July 2009 – July 2010

Description: Research In Motion (RIM) develops integrated hardware, software and services that support multiple wireless networks. RIM is best known for creating the BlackBerry Smartphone and providing solutions that allow seamless access to email, phone, text messages, the Internet and applications. While at Research In Motion I have had the opportunity to gain experience in many fields including Network Operations, Web-based application development, I.T. Operations and customer support. I have worked on a range of projects and gained experience in ASP.NET, C#, SQL and database design.

Netcall Computer Services,

Period: June 2008 – August 2008

Description: Netcall is an IT consultancy firm that specialises in providing IT solutions for small to medium businesses. It has given me good, hands on experience in dealing with clients, troubleshooting problems and developing solutions.

KernowLAN,

Period: Ongoing

Description: KernowLAN is a multiplayer gaming event which I set up and now run with a friend. It has been running for over a year now and our last event was our largest so far. Running these events has given me a good knowledge of how to setup and manage a network including, DHCP, DNS, FTP, Web servers and File Servers. It has also helped me to develop customer relation, advertising and management skills.

Technical Crew, Royal Holloway Students Union

Period: September – current

Description: The Technical Crew are responsible for running and operating the lighting and sound equipment on union event nights. It is a high pressure environment and skills such as problem solving, calmness under pressure and time management are essential.

Comptia A+ Computer Technician Certificate

Period: Gained June 27th 2007

Description: The Comptia A+ is a vendor neutral computer technician certificate that focuses on computer hardware, networking technologies and operating systems installation.

Interests

With regards to Computer Science my interests are in creating usable and efficient human computer interfaces and exploring new ways of retrieving human input. As well as this I enjoy mathematical modelling in a computer environment.

Outside of my studies I greatly enjoy cooking, and have held many jobs in commercial kitchens, most of the time working as a second or junior chef. Also I enjoy playing pool, swimming and organising our LAN gaming events.
